FARNHAM'S WATER RAISERS!

THE BEST IN USE.  
FARNHAM'S WATER RAISERS!  
Endless Chain and Bucket Device  
for raising water, and his  
Platform Pump!

by which water can be raised from wells or from  
wells of ordinary depth, he would say, to the  
inhabitants of Rock and the adjoining counties, that he  
has the honor to announce that he has, by addressing  
him at Johnston City, Rock County, Wis.,

February 24th, 1860.

The following are selected from among the many  
testimonials to the merits of one of these inventions.

I have for two years used Farnham's Self-Raising  
Water Raisers, in a well 40 feet deep, and I am  
convinced that no other method of raising water  
will be so successful in this case, and in all cases of  
this kind.

No one who appreciates the saving of labor, will  
wonder at this. Farnham's Self-Raising Water  
Raisers, being so simple, and so easy to use, will  
be found to be the best of all.

Having used Farnham's Self-Raising Water Raisers,  
in a well 40 feet deep, and I am convinced that no  
other method of raising water will be so successful  
in this case, and in all cases of this kind.

## Another Letter From Pike's Peak.

The following extracts from a letter written by a well-known citizen of this city will be read with interest at this time:

DEAR WIFE AND DAUGHTERS:—By the goodness and blessing of God, I am alive and well at this time. We arrived in this city to-day, at about 11 o'clock A. M., and I find by counting up the traveling time, we were 32 days on the road, not counting the days we laid over, which, I think, is the shortest time made by any one on the road, that had the road we had, for we passed all the teams we came up to, and no teams passed us, and now we are in Denver, and as the old crowd said, "the next thing will be something else," and what that will be, as yet I cannot tell.

It would be entirely impossible for me at this time, to tell you all we saw, in relation to the emigration, and of the ragged women and children we saw—for there is any number of families moving out here, and what they will do, the Lord only knows.

I cannot learn any thing satisfactory about the mines, only all agree in saying, that not one in nine hundred and ninety-nine, can earn their board in the mountains mining. I am going up to try, but I would sell for ten cents all I will get, in all probability, but still I may get enough to pay expenses out here.

Thousands are running to and fro, all over the mountains, and then going home. We met Messrs. Glaw and Yates, going back to Janesville, one week ago to-day, about 140 miles east of here. They will tell you all what they think of the mines; they may be mistaken, but I am inclined to think they are right in their conclusions.

Flour is worth here \$1.50 per sack, bacon 25c per pound, sugar 25c per pound, tea \$1.50 per pound, and potatoes 15c a pound, eggs 50c per dozen, rice 25c and nails 25c per pound, little sacks of salt \$1.50 each, shirting 20c per yard, half 10 cents a pound, or \$200 a ton.

There is plenty of snow to be seen here all the year. Next week I expect to be in the snow.

Tell Orrin Bates to wait awhile before he comes here for gold; and tell him that his chance would be about the same as if a man should take a pin head and throw it into Rock River somewhere between Janesville bridge and Monterey bridge, and offer a large reward for the pin head. His chance would be about equal, if he should start to find the pin head, as it would to come here and hunt gold in the mountains.

I must take my chances now, but if I get out of this God-forsaken country, I will look out next time.

Judge Tompkins arrived here today. We have some twenty here from Janesville now.

It does not rain here at this season of the year, but in the mountains it rains or snows every day. We can see it from here. Some of the peaks reach to the clouds. The mountains look sublime, indeed. The tops of some of them can be seen one hundred miles off.

Yours, as ever, S. D. SMITH.

## GERSHON AND ORANGE.—We like to chronicle a good deed, especially on the part of a railroad manager, and we are often called upon to do this in behalf of the Galena and Chicago Union, and the Illinois Central railroads. We learn from the Plattville Witness that a clergyman of that town, Rev. John Lewis, being in Chicago, took ill to travel in the usual way, the Galena and Chicago Union Railroad officers at the depot had an officer specially attached to the outward bound train, and he was thus conveyed over their road to Freeport, and there the car was switched off on to the Illinois Central road, and taken charge of by the officers of the train of the latter company, when he was soon landed at Galena. For this extra trouble of attaching a special car to both railroad trains, for the sick man and his friends to ride in, not a cent was charged, neither was there any charge for their fare. This obliging and generous act of both of the railroad companies will not soon be forgotten, and will be held in grateful remembrance by all interested.

## ROBBER.—An officer of the Japanese embassy was robbed of his two swords while in Baltimore. They had been placed at the foot of his bed, while he left the room to witness a display of fireworks. Both swords were encased, and the hilts beautifully enamelled and carved. A reward of fifty dollars has been offered by the authorities of Baltimore for their recovery.

## DISCHARGED.—Thos. Fitch, late of the Free Democrat, who was arrested and sent to Missouri, has been released, and is on his return home to Wisconsin.

## QUEER SUICIDE.—The Boston Post says a man named Deau Gilbert committed suicide in Prescott, on Sunday night, in a very singular manner. He balanced a rock, weighing nearly a ton, and fastened it with pieces of a board, and after he had crawled under, kicked the board out and the rock fell, crushing him to death. He was a temperate man, in comfortable circumstances, and only fifty years of age.

## LOUIS NAPOLEON PREPARING OCEAN MONSTERS.—A late London letter says:—The Emperor Napoleon, under the guise of a company, with a government guarantee, has entered into arrangements to have ten new iron plate steamers built here in Great Britain, ostensibly for commercial service between France and the east. The steamers are to be of ten thousand tons each, or just about half the size of the Great Eastern, being more than double the size of the Persia, the Adriatic, or the Van derbilt. The contract is to be signed to-day. I believe several of them are to be built by Scott Russell, the builder of the Great Eastern.

## Several days since a well dressed American woman left her two pretty little girls, aged respectively 4 and 6, in charge of an apple woman in Albany. For a few moments, and forgot to call for them. They are now in charge of the mayor.

## REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE THEATRE LINE, Office in Union Telephone Depot.

## BALTIMORE CONVENTION.

[Our report yesterday closed with the submission of the majority report to the committee on credentials. The following is the synopsis of it.]

It recapitulated the proceedings at Charleston so far as the adjournment and the resolution for filling vacancies were concerned. The committee had found vacancies of whole delegations in the states of Alabama, Mississippi, Louisiana, Texas, Florida, etc., and vacancies in Georgia, Arkansas and Delaware, and contested seats in Massachusetts and Missouri. They report in favor of the original Mississippi delegation; the admission of the Soule delegates from Louisiana; the admission of the original Texas delegates; the admission of Messrs. Bayard and Whitely from Delaware; the admission of J. O'Fallon of Missouri; the admission of the contestants from Alabama; the admission of half of each delegation from Georgia, with half the vote of the state for each, but if either refuse to take seats, then the remainder shall be entitled to cast the full vote; the admission of both sets from Arkansas—the original delegates to be entitled to two votes and the contestants to one vote; but if either refuse to take seats, the other is entitled to cast the full vote of the state.

Mr. Stevens of Oregon, on behalf of the minority of the committee, presented a report in favor of the admission of Mr. Hall of Massachusetts, Mr. Bayard of Delaware, Messrs. Bayard and Whitely from Arkansas, Florida, Louisiana, Illinois, Georgia, and inviting Florida delegates to take their seats in the convention. The report proceeded to say this was affecting the future existence of the convention, and if it were adopted, it would be a fair and equitable adjustment of the case, arguing against the right of the convention to declare seats vacant, where states had elected delegates to represent them. Even though those delegates had withdrawn, that withdrawal was not a resignation.

Mr. Gittings of Maryland, on his own part as an individual member of the committee, agreed with the majority report except in the case of Alabama, in which case he reported in favor of the admission of the original delegates. After reading his report, he moved the reports be printed, and that the committee take a recess till three o'clock. [Cries of "No."] Mr. Gittings—Well, I withdraw.

The minority report is signed by the states of Oregon, New York, Pennsylvania, Delaware, Virginia, North Carolina, Tennessee, Kentucky and California, and in part by New Hampshire.

After some debate, the previous question was ordered on these reports, and then questions of order consumed the time until adjournment to the evening session, without taking the question.

## EVENING SESSION.

BALTIMORE, June 21.

The evening session was wholly occupied by discussing points of order and mode of furnishing delegates with tickets.

Mr. Montgomery of Pennsylvania, objected to the present mode, as he did not wish to hold any personal communication with the chairman of the delegation.

Mr. Randall of Pennsylvania, approached, and exclaimed it is false, it is a falsehood. Loud cries of "order," and confusion. One Randall's sons named Robert, attempted to approach Mr. Montgomery with hostile intent.

Mr. Dawson rose and said that Mr. Montgomery had applied for a ticket, though a boy, and he did not choose to give it to any but a delegate himself. Cries of "that's right."

Mr. Montgomery arose amidst the most uproarious cries of "order," exclaiming, he is a lying scoundrel. The speaker then adjourned, and the convention adjourned.

Mr. Dawson rose and said that Mr. Montgomery had applied for a ticket, though a boy, and he did not choose to give it to any but a delegate himself. Cries of "that's right."

Mr. Montgomery arose amidst the most uproarious cries of "order," exclaiming, he is a lying scoundrel. The speaker then adjourned, and the convention adjourned.

## ALL SORTS OF PARAGRAPHS.

Since the newly appointed postmaster of New York, Mr. Dix, has had charge of the office, the deposits have exhibited an increase of twenty per cent. over the deposits of Fowler. This fact indicates that a regular system of swindling has been carried on in the office for years.

Wild strawberries are very plenty this season on the prairies of Iowa.

A tourist who has just returned from a fishing jaunt in New Hampshire and Maine, says the peak of Mount Washington is yet white with winter snow, and Jack Frost has not yet vacated the valleys or ice ravines of that cool region.

The weather in Great Britain still continues most favorable for vegetation, and growing crops present a most healthy appearance. There is every prospect of an abundant harvest.

For killing a man at Dallas, Ala., the killer was sentenced six months, and fined \$500. For stealing a slave, the thief was sent up for ten years.

In the principal cities south, business is spoken of as very dull, and the weather is intensely hot.

It is alleged that the pleuro-pneumonia is a disease born of the distillery cow stables. The report of the New Jersey Agricultural Society, just out, says so.

The Cleveland Democrat says that from the returns already in, it is feared that the population of Ohio, instead of advancing, has slightly decreased within the last ten years by emigration and

## LOCAL DEPARTMENT.

### Thermometrical Table.

By Andrew Delaney, Jr., at the Wisconsin Drug Store.

Date	6 A.M.	12 M.	3 P.M.	9 P.M.	Weather
June 21	53°	72°	82°	72°	Clear.
June 22	53°	72°	82°	72°	Clear.

The Excursion Cars, etc.—Mr. Dunlop, the popular superintendent of the Chicago and Northwestern railway, has succeeded in securing a sufficient number of passenger coaches for the ample accommodation of 2000 people, which is a highly satisfactory arrangement to the great number of excursionists who are preparing for the trip to Crystal Lake.

The excursion train will be made up of passenger cars from the following roads, viz: Chicago and Milwaukee, Chicago and Northwestern, Galena and Chicago Union, Racine and Mississippi, Milwaukee and Mississippi, and Milwaukee and Watertown. This is an evidence of a union of roads and a union of people which augurs a success in every particular.

Based Institute.—The annual examination and exhibition of the pupils of this institution is announced in today's paper by the principal, Mr. Churchman. The examination to which the public are invited will be of an interesting character, while the exhibitions of the blind are always entertaining and instructive. We trust a large number of our citizens will attend both, and thus encourage teachers and pupils to renewed exertions in the discharge of their duties.

The Strawberry Festival on Tuesday evening at the Hyatt House, was in every sense, a decided success. It was a happy thought on the part of the ladies of the M. E. church to furnish an occasion of so high social character, and devoting the proceeds to the benefit of their pastor. The large dining hall was beautifully and tastefully decorated with flowers and shrubbery, while an abundance of strawberries and cream, ice cream and cake, were furnished for the happy company. The arrangements were perfect and the whole passed off in a manner which did credit to all concerned. We were struck with one feature of the occasion—the free and delightful mingling of the members and pastors of the different churches of the city. Though it was for the benefit of our Methodist clergyman, there seemed little difference in the interest manifested by members of the several churches. This is right and is much more productive of a catholic feeling than more formal but ineffectual unions.

Latest Escape.—Mr. John Stockton, of Milton, informs us that he shavered a fleece from one of his sheep this season, which weighed eleven pounds and fourteen ounces. This is the heaviest that he has ever noticed this year. Dane county, we believe, has been boasting a title in this line, but she evidently cannot come up to "Old Rock" in the production of "wool."

The Atlantic for July.—The Atlantic Monthly for July is out, and may be had at our bookstores. The table of contents presents a splendid variety, wherein may be found something to gratify every healthy taste—science, poetry, romance, criticism and art. "A Legend of Maryland" is the title of a new story, understood to be from the pen of John P. Kennedy, author of "These Slow Robins," of which the opening chapters are given in the present number. "The Professor's Story" increases in interest.

Evansville Seminary.—We were unable to attend the examination of the Evansville Seminary, which occurred on the 15th, 16th and 20th insts., and condense an account of it from the Albany Times. On Monday evening Rev. H. C. Tilton delivered an able address, rich in thoughts and facts. His theme was "The Progress of Science in the Present Age." It was an able essay, and was listened to with much interest. On Tuesday Gov. A. W. Randall addressed a large audience, taking a "casual" view of the importance of mental discipline in connection with intellectual culture. He spoke with great ability, and brought his argument home in his usual manner. He was followed by Dr. J. W. Hayt, the editor of the Wisconsin Farmer, whose theme was "Agricultural Education." The examination of the pupils was generally satisfactory, considering the difficulties of the past year, which we are happy to add are now removed. These were the unfinished state of the building and the herculean labors which fell on Mr. Kilgore, the principal.

The people of Evansville have taken a commendable pride in this school, and have sustained it well. It bids fair to become one of the first institutions of the country. The exhibition on Wednesday evening was a brilliant display, and drew out a full house. The pieces spoken were well selected, and the "newspaper" was a gem of wit. We hope the efforts will get a good list of paying patrons, all others are unnecessary. The next term of this seminary commences August 22d, when we hope to see it filled to overflowing.

County Court.—The trial of Ogden Barrett has been in progress all day, the testimony having closed and the arguments of the counsel commenced. The district attorney, Mr. Sloan, is assisted by Mr. J. A. Shepper, in the prosecution, and Mr. J. R. Bennett is retained with Mr. George B. Smith for the defense.

Commons.—The Watertown Democrat fears that a majority of the farmers in the southern part of the county, or at least in the vicinity of Ft. Atkinson, who are mortgaged in aid of the old Chicago, St. Paul and Fond du Lac railroad, are arranging the same to the best advantage they can with the holders of the mortgage.—This is the best way to get rid of this trouble. Better do this than go on with lawsuits and expend money in that way.

Fifty-nine thieves and pickpockets were arrested in the crowd which turned out to see the Japanese reception in New York. The detectives were too sharp for them.

## Rock County Agricultural Society.

SPECIAL NOTICE.—There will be a special meeting of the Rock County Agricultural Society and Mechanics' Institute held at the court room in the city of Janesville, on Monday, July 14, 1880, at 10 o'clock A. M., for the transaction of business in reference to the coming fair. A full attendance is desired and expected.

JERE A. BLOUNT, Secretary.

June 21st, 1880.

State Institute for the Blind.

The closing examination of the several classes of this school will be held at the Institute on Tuesday, the 26th inst. Morning session from 9 to 12 o'clock. Afternoon session from half-past 1 to half-past 4.

The public are respectfully invited to attend and witness the progress of the pupils. A concert and exhibition will also be given at Lappin's Hall on Wednesday, the 27th inst., commencing at half-past 7.

Admission to the Hall on Wednesday evening—15 cts. for adults, 10 cts. for children. W. H. CHURCHMAN, Superintendent.

je22d44

A CARD.

It will be said in the last day, "Inasmuch as ye have done it unto one of the least of these, my brethren, ye have done it unto me." The undersigned present their grateful acknowledgments to the ladies of the M. E. Church in this city for their generous remembrance of their pastor and family by donating to us the proceeds of the strawberry festival at the Hyatt House, on Tuesday evening last; and to all who contributed to the interest of the occasion, we tender our sincere thanks. Particularly do we mention the kindness of Mrs. A. Hyatt Smith, in granting the free use of the dining hall and its fixtures, and the parlors of the Hyatt House for the occasion. Long shall we remember Tuesday evening last with grateful emotions, and wish that we were more worthy of so distinguished favors.

H. C. TILTON, J. MARIA TILTON.

Janesville, June 22, 1880.

CURIOUS FREAK OF LIGHTNING.—The house of Mr. Caleb Jewett, across Lake Monona, says the Madison Journal, was slightly injured by lightning on Sunday evening. It was protected by a lightning rod. The top of the rod was melted off, and the electric fluid passed part way down the rod, unjoined it, passed into the sitting room, breaking ten lights of glass, shattering the glass and spitting one floor-board; then into the hall, doing very little damage, then into the parlor, tearing across each breadth of the carpet, destroying about one half of it, shattering one floor board, and breaking five lights of glass without injuring the sash; then into the cellar, knocking the bottom out of an ice box, broke two lights of glass and passed into the ground at one corner. The damage was slight, all told, though the fluid passed through all portions of the house, in many places leaving simply a black mark.

Life Insurance.

Those desiring the safest and cheapest protection for their families, can secure it in our Wisconsin company. It is already known in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state. While daily demands that men should insure their lives, it also demands that they should keep their money for investment at home. Consider that our success has been more than equal to that of the most "unprecedented" we would certainly invite all our citizens to call at the office, southeast corner of Main and Wisconsin streets, and examine for themselves.

## HARD TIMES MADE EASY.

A Great Many Goods for Little Money.

FIFTY PER CENT SAVED

BY PURCHASING GOODS OF

MOKEY & BRO.

WE are now receiving our second supply of

Summer Goods!

embracing everything

New and Desirable in Market,

which, for fitness of texture and splendor of design, far

exceeds any stock of goods ever brought to this city.

Edward McKee, of this firm, has been sent, since the

close of April, attending every American fair of the season,

also purchasing in original packages from European

and manufacturers, a stock which enables us to offer

our entire stock much less than the market rate for future

We have this day opened a splendid line of foreign

FANCY DRY GOODS!

purchased for sale only by our resident agent in Europe,

to which we respectfully call attention.

With the consideration of hard times and the scarcity

of money we have purchased our goods, and for the general

benefit please send the attached list for future reference.

Among our stock will be found a large assortment of

Black and Fancy Silks,

Beautiful Milled Merinos,

Beautiful French Organs, a new article,
